

The Honorable Collin Peterson  
U.S. House of Representatives  
2211 Rayburn House Office Building  
Washington, D.C. 20515

\_\_\_\_\_, 2012

Dear Representative Peterson:

In our Bill of Rights, the First Amendment allows for the free exercise of religion.

Unfortunately, the Department of Health and Human Services is now forcing health care professionals and religious institutions into actions that violate their religious beliefs, and personal convictions.

The Obama administration has told our religious institutions they have one year to comply to begin providing coverage for services against their beliefs. As your constituent, I disagree with this policy.

I urge you to support the Respect for Rights of Conscience Act (H.R. 1179) and please respond to me with your position on this important legislation.

Sincerely,
